The screenshot displays the EBSCO research interface. At the top, the search bar contains the query "hygiene AND passenger ship". Below the search bar, a red box highlights the filter options: "All filters (0)", "Full text", "Peer Reviewed", "All time", and "Source type". To the right of these filters, a red box highlights the "Results: 52" indicator. Below the filters, the search results are listed. The first result is titled "Hygiene inspections on passenger ships in Europe - an overview." and is a peer-reviewed academic journal article. The second result is titled "Assessment of hygiene standards and Hazard Analysis Critical Control Points implementation on passenger ships." and is also a peer-reviewed academic journal article. The third result is titled "Scoping review of infectious disease prevention, mitigation and management in passenger ships and at ports: mapping the literature to develop comprehensive and effective public health measures." and is an academic journal article. Red arrows point from the text labels to the corresponding elements in the interface: one from "Nombre de résultats" to the "Results: 52" box, one from "Liste d'articles" to the first article, and one from "Possibilité pour diminuer le nombre de résultats" to the filter options box.
